SWISS  MADE

## FELCO 230 |

Lever-action lopper with flat anvil

## FELCO 231 |

Lever-action lopper with curved anvil

## Expert - 230 | 231

FELCO, the world leader in pruning and cutting tools, extends its range to provide the ideal solution for the intensive pruning of large branches, particularly suited to orchard work.

### Easier cutting action

Innovative and ingenious lever system that greatly reduces the required cutting effort. The force applied by the user is multiplied by up to 26 times.

### Extra-large cutting diameter

Bevelled blade on both sides for easier penetration into the wood. The large opening of the cutting head easily allows the cutting of branches up to 40 mm in diameter.

### Ergonomics and comfort

Ultra light. Less arm and shoulder strain for the user, even with intensive use. Non-slip handle grips. A safety stop prevents fingers getting jammed at the end of the cutting action.

### Sturdiness

The tubular aluminium handles are surprisingly light whilst being exceptionally sturdy.

### Spare parts

Like all FELCO tools, the models FELCO 230 and FELCO 231 are backed by a full range of spare parts.

800mm/31.5in.

1150g/40.5oz.

40mm/1.6in.

- + light
- + manoeuvrable
- + effective

## Expert 230 - Expert 231

The models differ by the shape of their cutting heads

New

The **FELCO 230** features a straight, tapered anvil that allows easy access to the location of the cut

New

The **FELCO 231** features a hollow-shaped blade and a curved anvil that traps the branch close to the fulcrum of the cutting head, thus making cutting work easier.

## FELCO - Expert - 230 | 231

Two new loppers that meet the needs of even the most demanding professionals
